Education

Arya College of Engineering and IT
Bachelor of Technology in Computer Science

CGPA: 9.24
2022 – 2026

Kendriya Vidyalaya No. 2, Jaipur
Class 12th (CBSE)

78%
2022

Technical Skills

- **Programming Languages:** C++, JavaScript, HTML, CSS
- **Web Technologies:** React.js, Node.js, Express.js, Redux, TailwindCSS, MongoDB, Postman, Git, GitHub, Git Bash, VS Code
- **Core Concepts:** Data Structures and Algorithms, Object Oriented Programming

Internship

SaiKet Systems - Front-End Developer

HTML, CSS, JavaScript

- Developed responsive web applications using HTML, CSS, and JavaScript, includes quiz systems and to-do list.
- Implemented dynamic UI components and interactivity using DOM manipulation and event-driven programming.
- Designed modern, responsive user interfaces and built real-world project clones to strengthen practical development.

Projects

- **Taskora - Full Stack Task Manager** React.js, Node.js, Express.js, Tailwind CSS, REST API
 - Developed a responsive full-stack task management application with CRUD operations for creating, updating, deleting, and tracking tasks.
 - Built RESTful APIs using Express.js and integrated them with a React frontend using Axios for seamless client-server communication.
 - Implemented task filtering, search functionality, status tracking (Completed/Pending), and real-time statistics dashboard.
 - Deployed the frontend and backend on Render and managed project version control using Git and GitHub.
- **Placement Preparation Tracker Dashboard** HTML, CSS, JavaScript
 - Built a responsive dashboard to monitor DSA progress, core subjects (DBMS, OS, CN), and daily study consistency.
 - Implemented dynamic DOM manipulation for real-time updates, goal tracking, and instant feedback on user inputs.
 - Designed modular UI with reusable components, card-based layout, and mobile-friendly responsiveness.
- **RateX – Live Currency Exchange Tool** HTML, CSS, JavaScript
 - Developed a real-time currency converter using external exchange rate APIs for accurate conversions.
 - Used asynchronous JavaScript (fetch, async/await) for efficient API communication and data rendering.
 - Implemented event-driven updates and dynamic DOM manipulation for instant conversion results.
 - Added input validation and error handling to improve reliability and handle API/network failures.

ACHIEVEMENTS

- Solved 170+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Secured 2nd position in Projectathon (Innovation Engineering) for innovative project development.
- Served as Student Coordinator for NCETIASE-2023, managing event operations and coordination
- Qualified the Tata Consultancy Services (TCS) National Qualifier Test (NQT) 2026.
- Achieved 10 SGPA (Department Rank 1) in 8th Semester.
